

Training Day

Just transition: empowering youth and women to transform the energy sector

Ilaria Conti

An initiative by the Florence School of Regulation since 2017, has grown into a full-fledged project.

Our Vision

A world where gender equality illuminates every corner of the energy, climate, and sustainability sectors, creating opportunities for all.

Our Mission

Empower women in the energy, climate, and sustainability sectors by increasing the visibility of female professionals, celebrating their achievements, and promoting equal opportunities.

Our Impact

Support our mission by advancing women professionals' visibility, leadership, and opportunities through a range of initiatives, including training, scholarships, awards, and the Energybase talent - matching platform.
